

Alaska's Board of Game

Alaska's Wildlife Suffers with the Current Board of Game

The AWA is working with a coalition of attorneys and conservation organizations to find solutions to the wildlife abuses being perpetrated by the current Board of Game. The creation of a Board of Wildlife, conceptually and structurally different than the current broken system is among the considerations. Alaska's wildlife desperately needs a solution to this chronic problem and the AWA will be there for a better future for all our irreplaceable wildlife!
